TECHNICAL SKILLS

Frontend

React TypeScript
JavaScript HTML5 CSS3
Vite

Web Technologies

Responsive Design REST APIs
Bootstrap Plotly Dash

Backend

Python Flask PostgreSQL

Tools

Git GitHub Docker
Tableau Alteryx Excel

LANGUAGES

- English (Fluent)
- Hungarian (Native)
- German (Basic)

ABOUT ME

Frontend-focused Software Engineer with over 10 years of experience developing enterprise web applications, interactive dashboards and data-intensive platforms. Strong experience building responsive and maintainable user interfaces with React, TypeScript, JavaScript, HTML/CSS and REST APIs, while collaborating in Agile teams and contributing to modern frontend projects using Vite.

WORK EXPERIENCE

- Lead Front-End Developer / Data Analyst** Jun, 2021 – Present
Human Digital (M&C Saatchi)
 - Designed, developed and maintained enterprise web applications and interactive dashboards used by internal teams and clients.
 - Developed responsive web applications and websites using **HTML**, **CSS** and **JavaScript**.
 - Developed responsive user interfaces featuring interactive filtering, dynamic visualisations, mapping, network graph analysis, automated reporting and file upload/download functionality.
 - Developed and maintained both internal business applications and client-facing dashboard solutions using modern frontend development practices.
 - Integrated and consumed **REST APIs**, developed data querying solutions and connected applications to multiple internal and external data sources.
 - Used **Git** for version control, collaborative development and release management while contributing to modern frontend projects using **Vite**.
 - Developed modern frontend applications using **React**, **TypeScript** and **Vite**, building reusable UI components and integrating REST APIs.
 - Built data-intensive applications using **Python (Dash/Plotly)**, integrating **PostgreSQL**, **AWS S3** and multiple external data sources.
 - Designed and maintained ETL pipelines for importing, transforming and validating large datasets.
 - Managed application deployment, authentication, permissions and monitoring within **Plotly Enterprise**.
- Senior AdOps Reporting Analyst** May, 2017 – Jan, 2021
IPG Mediabrands
 - Designed automated reporting solutions using **Tableau**, **Google Data Studio** and **Alteryx**.
 - Developed ETL workflows integrating multiple API data sources and improving reporting efficiency.
 - Built interactive dashboards and reporting solutions for large international clients.
 - Led reporting projects, coordinated client meetings and managed the work of several colleagues.
 - Ensured timely delivery, maintenance and continuous improvement of reporting across multiple client accounts.
- Data Analyst** Jul, 2015 – May, 2017
Time Inc. UK
 - Produced customer insight and marketing reports using **Excel**, **Access**, **Google Sheets** and **Google Analytics**.
 - Performed customer segmentation using **RFM analysis** to support marketing campaigns and business decisions.
 - Improved data quality through cleansing, validation and reporting automation.

EDUCATION

- University of Texas at Austin** Aug, 2020 – Mar, 2021
Post Graduate Program: AI and Machine Learning
- University of London** Sep, 2013 – Nov, 2014
MSc Physics with Condensed Matter, Merit (2:1)
- Queen Mary, University of London** Sep, 2010 – June, 2013
BSc Physics, First Class Honours degree (1:1)
